

Strategies for Transportation Litigation and Dispute Resolution: Leading Lawyers on Defending Clients Against Claims in the Trucking, Aviation, Shipping, and Railroad Industries (Inside the Minds)

Strategies for Transportation Litigation and Dispute Resolution provides an authoritative, insiders perspective on building a defense against violations and claims in the trucking, aviation, shipping, and railroad industries. Featuring experienced partners from law firms across the nation, these experts outline the impact that changes in regulations overseen by the Federal Motor Carrier Safety Administration, Federal Aviation Administration, Financial Industry Regulation Authority, and Surface Transport Board have had on litigation strategies. These top lawyers offer specific advice on understanding the nature of the accident or violation, conducting industry-specific discovery, and counseling clients on investigation procedures. From keeping up-to-date on trucking, aviation, shipping, and railroad safety regulations to helping clients remain objective about their case during the litigation and settlement process, these experts discuss the biggest challenges attorneys face in transportation litigation. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts on the keys to success within this evolving legal field. Inside the Minds provides readers with proven business and legal intelligence from leading C-Level executives and lawyers. Each chapter offers thought leadership and expert analysis on an industry, profession, or topic, providing a future-oriented perspective and proven strategies for success. Each author has been selected based on their experience and C-Level standing within the business and legal communities. Chapters Include: 1. James M.
