

Green Porno

From the beloved actress Isabella Rossellini comes Green Porno, a strange and enlightening visual exploration of the sex lives of insects and sea creatures, based on the wildly popular short videos of the same name. Co-director Jody Shapiro has taken 125 arresting film stills of Isabella dressed in animal costumes which are the centerpiece of Green Porno and will appear alongside narrative text describing the love making process of each animal. Each chapter will also include a quirky, surprising facts about each species.
