

## Iris Murdoch: The Retrospective Fiction

Iris Murdoch: The Retrospective Fiction considers one of the major British novelists of the post-war years in a new light, arguing that Murdochs compulsive plots and characters are strongly motivated by the question of the past. Drawing on many of her key works, and providing the first analysis of her first-person retrospective novels as a separate group within the larger body of her fiction, the book also considers Murdochs relation to key currents within twentieth-century thought, like modernism, postmodernism, and psychoanalysis.
