

Race Against Global Warming (The First Starship-the complete novel)

A frantic search to find a team of engineers, scientist and military to design and build a prototype starship to save one billion of Earths brightest and best after it is discovered that global warming is beyond repair with current technologies.

How and why did Earth come to such a point? Can the impossible be done? And, if so, who chooses who lives and dies? Discover the answer to these questions and more as you join the crew of the first starship.
