

## War Club

A nuclear missile defense program for the United States consisting of a killer satellite in geosynchronous orbit is the heart of this story. The Soviet Union and the U.S. are in a race to establish control of near-space with their own killer satellites. The Soviets have stolen sensitive data from the U.S. to complete their program and the almost insurmountable task of defeating their plan falls on a former Air Force pilot and a beautiful female engineer who must infiltrate the secret base where the plans have been taken. They must change the plans and get back out undetected. The fate of the free world rests upon their ability.
