

War, Progress, and the End of History: Including a Short Story of the Anti-Christ, Three Discussions (Classic Reprint)

Vladimir Soloviev in 1900 Russia lost her most original and essentially Slavonic thinker. A deep sympathy with mysticism, united to the power of fearlessly probing human i -consciousness, gave him eminence not only among the philosophers of Russia, but of Europe. Born in 1853, Soloviev entered upon life in an atmosphere charged with the elements of change. The emancipation of the serfs opened an era of political experiments, and the ordeal of the Crimean War braced and stimulated the national spirit. It was a time of high aspirations struggling against an undercurrent of philosophic doubt, which exercised an abiding influence upon the sensitive and inquiring mind of Soloviev. He was happy in his parentage; his father, Serge Soloviev, being a historian of high reputation, and his mother a woman of character and mental attainments. She belonged to a noble family of Little Russia, and numbered among her ancestors a greatuncle who had won consideration as a philosophic writer; from this source possibly Soloviev derived the bent of his intellect.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
