

Sinemanian!: A Satirical Expose of the Lives of the Most Outlandish Movie Directors: Welles, Hitchcock, Tarantino, and More!

A loving but wickedly humorous tribute to cinema in graphic non-fiction, Sinemanian! casts its spotlight on film directors whose lives behind the camera are every bit as compelling, strange, and eccentric as the most headline-making film actors. Twenty-three North American and European directors including Quentin Tarantino, Woody Allen, Alfred Hitchcock, Orson Welles, and Roman Polanski are given a parodic biography that highlights these men's twisted genius, rampant egos, and weird behaviour. Sinemanian! is unsparing in portraying them, mercilessly and affectionately, in Cossette's striking illustrations.
