

## The Sound of Murder (An Ivy Meadows Mystery) (Volume 2)

AGATHA-AWARD NOMINATED  
SERIES This gut-splitting mystery is a hilarious riff on an avant-garde production of the Scottish play...Combining humor and pathos can be risky in a whodunit, but gifted author Brown makes it work. - Mystery Scene Magazine (on Macdeath) The setting is irresistible, the mystery is twisty, and Ivy is as beguiling as ever, but what I really loved was the depth and complexity of painful human relationships right there in the middle of a sparkly caper. Roll on Ivy #3! - Catriona McPherson, Anthony, Agatha and Macavity Award-Winning Author of The Day She Died It is not easy to combine humor and murder, but Cindy Brown does it effortlessly. Who else would think of combining The Sound of Music with Cabaret with a serial killer? The result is such fun. - Rhys Bowen, New York Times Bestselling Author of Malice at the Palace Ivy is a delight! Shes sweet, smart, and a little zany. Youll find yourself laughing out loud as you race through the pages. - April Henry, New York Times Bestselling Author of Lethal Beauty The mystery kept me glued to the pages and I enjoyed all facets as each clue got me closer to the killers identity...had me roaring with laughter...A delightful read and I cant wait to see what happens next in this amusingly entertaining series. - Drus Book Musings Ivy Meadows is a likable, funny, hapless narrator. She goes too far, says too much, sticks her nose in where it doesnt belong...But the mysteries are only part of the fun in Cindy Browns Ivy Meadows Mystery series...Browns books are well-designed cotton candy, page turners sprinkled with genuine character-based humor and delightfully bad jokes. I greatly enjoyed both Macdeath and The Sound of Murder, and I look forward to the next one. - Show Showdown The author blends theater lore with a deeper psychological layer, and always on stage is

her delightful sense of humor. The concept of a mash-up of The Sound of Music and Cabaret is as brilliant as it is ripe for absurdity, and readers will thoroughly enjoy this extremely fun mystery that entertains until the final curtain call. - Kings River Life Magazine

All Ivy Meadows wants is to be an actor. And a private investigator. Plus shed really like a pair of clean underwear, a place to stay since her apartment caught fire, and to overcome her fear of singing in public. Minor inconveniences aside, Ivy might be on a roll. Shes just landed her first real PI case, a seeming suicide in a retirement community. Not only that, but a big New York producer is coming to Arizona to see Ivy in the world premiere of The Sound of Cabaret (singing nuns AND Berlin burlesque). But all is not raindrops on roses. A creep in a convertible is tailing Ivy, a local posse member is way too interested in her investigation, and something is seriously wrong with one of her castmates. And that suicide--could it be murder? As the curtain rises, Ivy finds herself smack in the sights of a serial killer.
