

The Walking Plague Trilogy

The complete number one best-selling Walking Plague Trilogy now available in one volume, including: *Zombie Patrol*: Los Angeles County park ranger Jack Carter is about to discover that not all is as it seems in his tranquil life. Once responsible for patrolling the many public parks, in particular the popular Griffith Park with its famous observatory and zoo, Jack is about to discover that a whole new kind of animal roams his woods. The undead kind. It begins when his brother, on leave from the military, arrives sick. Deathly sick. Jack's concern turns to alarm when his own flesh and blood turns on him, forcing the park ranger to take drastic measures. Now searching for answers and help for his brother, Jack finds himself on the run from a lethal group of government agents - and from something monstrous that stalks his woods. Something not of this world... and hungry for flesh. *Zombie Rage*: Now, as Jack struggles to stay sane - as the hunger within him grows to insatiable, uncontrollable levels - he's about to confront his greatest fear. Indeed, the cure to the worldwide infection just might be worse than the zombies themselves. Now, with the walking dead spreading like wildfire, feasting on all those unlucky enough to cross their paths, one family just might have come across a cure to save all mankind... one family against an army of the undead. *Zombie Mountain*: Now, with his daughter bitten, it's a race against time to save her - and stop a madman hellbent on destroying everything that Jack has fought so hard to save. With time running out, and a doomsday clock ticking, Jack Carter will sacrifice everything to save the ones he loves... even while the walking dead multiply... and grow hungrier and hungrier.
